

## Project 2 – History

The world has changed so much over time, and the reasoning behind that all lies in the world's history. So many leaders and philosophies have changed as we all learn from mistakes and congratulate people's efforts.

This week's project, you get to go back in time and find out a part of history that you want to learn about.

If you aren't too sure what you'd like to learn you can go on the following link to find some ideas: <http://www.bbc.co.uk/history/forkids/>

Here are some things you can research and find out about your chosen place:

1. What was significant that happened at that time?
2. Can you map out your era on a timeline?
3. Was there a famous leader during that time?
4. What did children do during that time?
5. What did people wear during that time?
6. Was anything new found or invented during that time?
7. How has the world changed since?
8. Would you like to live in that era or in a different one?

It would be great to see what things you end up researching, so you can send in the following on google classroom:

-photos

-Powerpoints

-drawings/notes

-any typed writing or handwritten writing.
